Glacier Middle School: Campus renovation planned

Glacier Middle School will receive the largest portion of the funds if the proposed 2016 Bond passes. The district plans to selectively renovate some buildings while completely replacing and adding others.

Improvements include:

**Renovated & added classrooms**
- Upgraded technology throughout school
- Permanent classrooms to replace 16 portables
- New STEM (Science, Technology, Engineering and Math) classrooms

**Improved sports & entertainment facilities**
- Renovation of auditorium and gym
- Upgrades to Sheets Field, track surface and stands

**Basic building upgrades**
- Replacement of electrical, plumbing and heating systems

**Improved safety and security**
- New intercom, communication and phone systems
- Replacement of aging portables, eliminating outdoor transitions and multiple building entry points

White River *Pride*
Runs Deep
Why renovate the middle school?
- Currently 40% of the classrooms at Glacier Middle School are in portables
- Original classrooms were finished in 1962 and renovated in the 1980s, upgrades are needed badly
- Plumbing, electrical and heating systems are approaching the end of their useful life
- Within five years there will be 150 students more than the school can accommodate
- Middle school students need facilities that stimulate learning and access to current technology

Where will students attend school during construction?
We are looking at several options for housing students and will make every attempt to keep the students on site during the various phases of construction. We also have the option to house students at Wickersham Elementary and the old White River Middle School, if necessary

What's the timeline on this project?
If our community approves the bond in February, 2016, all projects should be completed early 2020.

"Glacier Middle School students and staff deserve a '21st Century School' equipped with the technology and resources that represent a commitment to high levels of learning."
- Kim Simons & Courtney McGonegle, 8th Grade Teachers
